countries

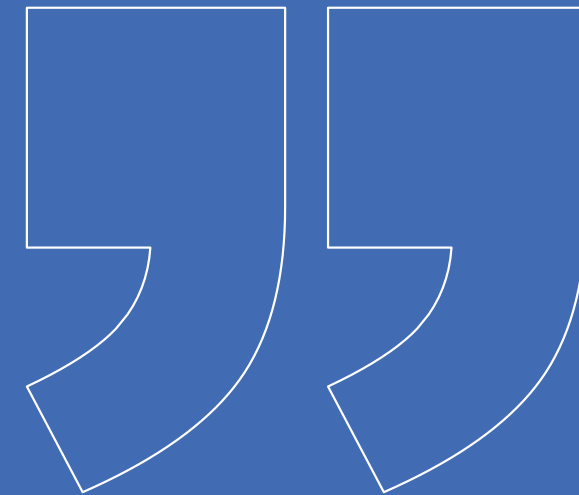

**Delivering to 50+  
countries globally**

The Dadachanji Group of Companies headquartered in Mumbai, India, is a diversified group with business interests in Pharmaceuticals and Biotechnology, Primary and Secondary Packaging, Medical Devices, Machine Building, Automation, Robotics, and Sterile Processing.

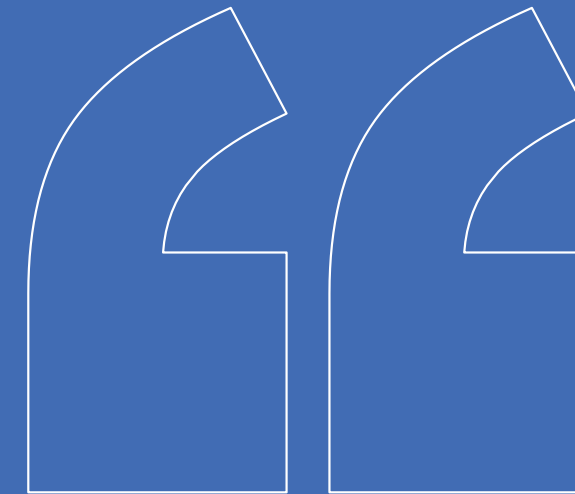

### **Kairus Dadachanji, Chairman**

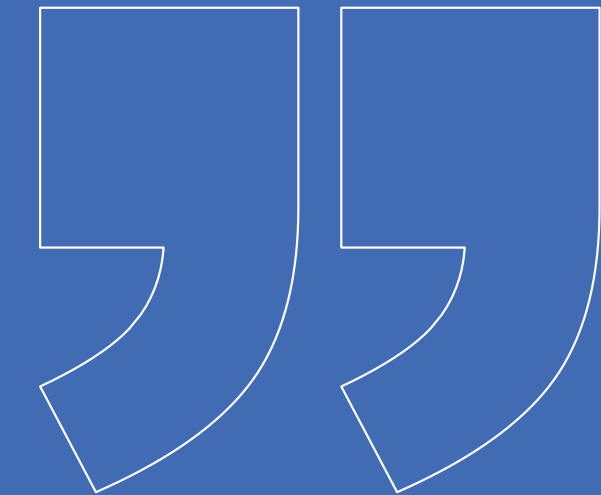

The Dadachanji Group has always strived for excellence. We started this group as a premium manufacturer of pharmaceutical containers but have since expanded, to become highly diversified. Today we provide over 1.8 billion products worldwide annually. We will continue to demonstrate our commitment to the pharma industry by continually improving and upgrading our portfolio.

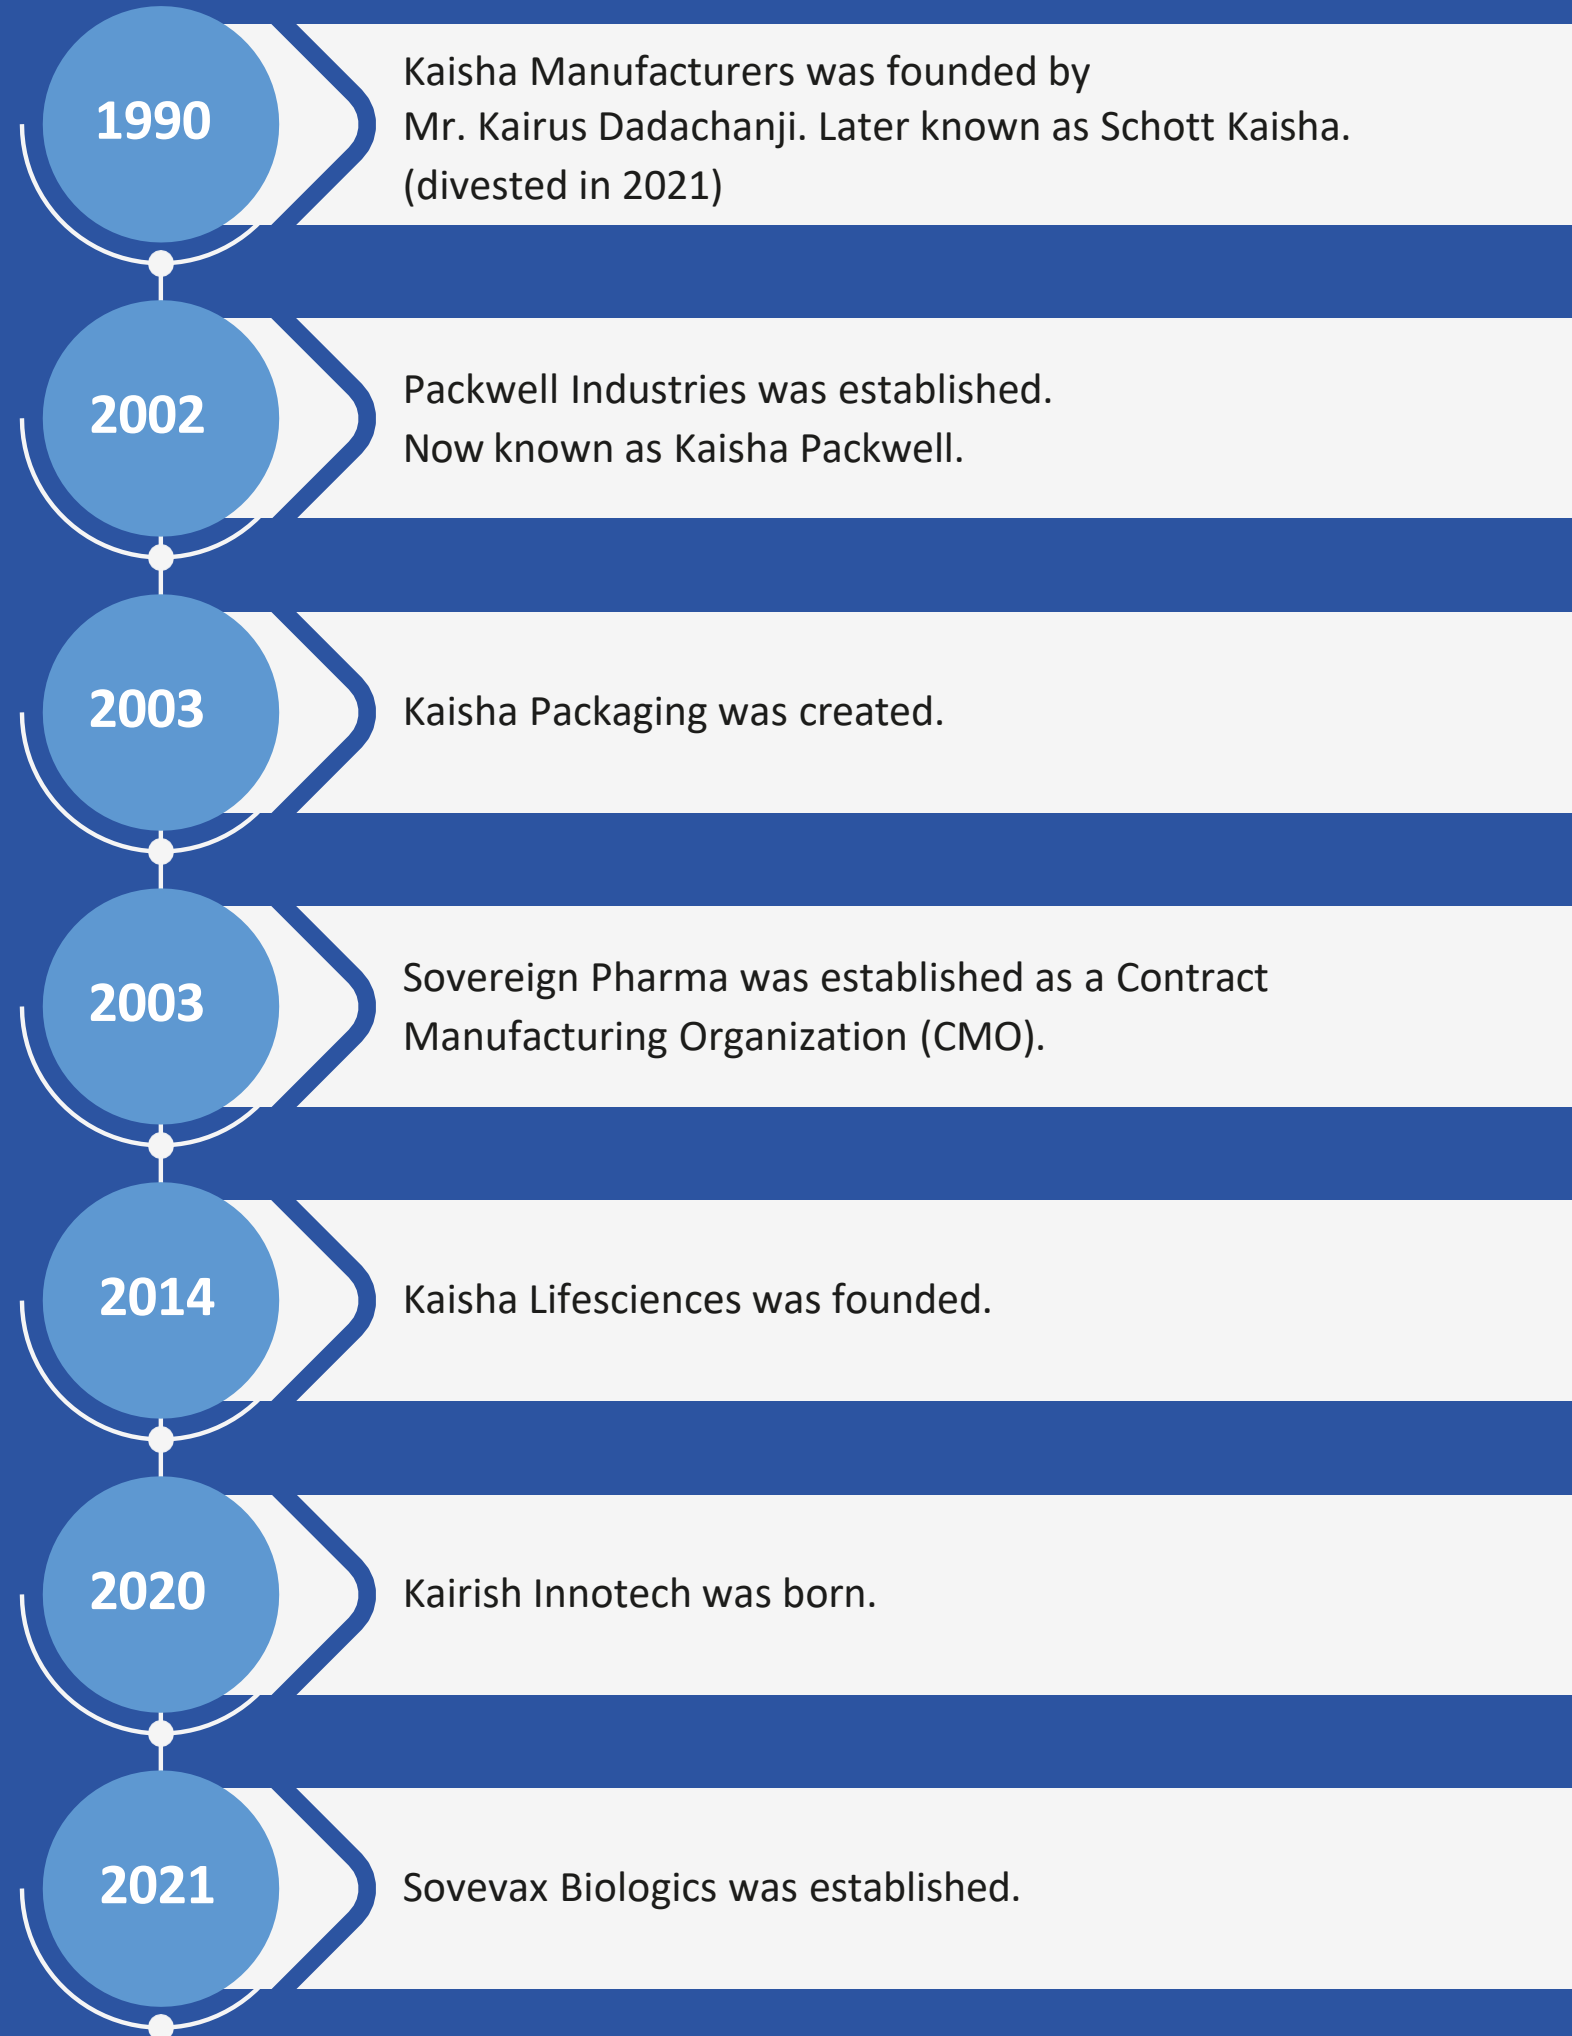

### **Rishad Dadachanji, Managing Director**

I believe constant innovation and development helps break barriers and push forward, not just for our companies but in any industry. That is why we invest heavily in R&D and automation services to provide specialized offerings that benefit our customers. Our philosophy is one of consistent advancement to offer creative solutions.

## GROWING FROM STRENGTH TO STRENGTH

From Kaisha Packaging to Sovevax Biologics, the Dadachanji Group of Companies continues to dominate its presence in the pharmaceutical industry, adding automation and robotics to its diverse portfolio.

## SOLUTIONS THAT SHAPE BUSINESSES

Patented innovations of the Dadachanji Group of Companies.

### Sycure® AD

A simple, innovative and cost-effective Auto Disable System to help prevent the reuse of pre-filled syringes.

- ◆ Simple replacement to a finger grip and back stop.
- ◆ Compatible with both round and cut flanges.

### Sycure® TE

A Tamper Evident Cap compatible with any industry standard rubber tip cap for LTLL syringes.

- ◆ Steam and ETO sterilizable.
- ◆ Simple click fit on to the LL, or assembled with LL and rubber tip cap.

### Spray Connector

A universal connector built with medical grade polycarbonate to make any vial into a spray.

- ◆ Compatible with any industry standard nasal pump used in various pharmaceutical applications.
- ◆ Ready-to-use system (ETO sterilized).

## A LEGACY OF INNOVATION

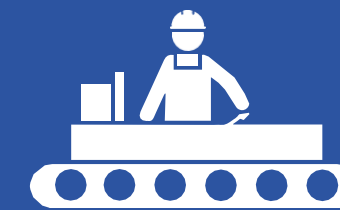

With innovative, tech-driven solutions at the helm of our approach, each product, from a billion doses of injections to high-end medical devices, we deliver quality in development and quantity in production.

# KAISHA

## *Packaging*

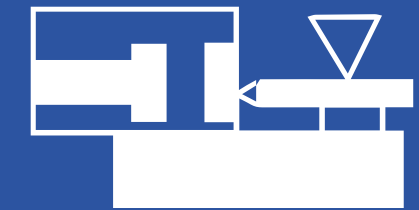

### PIONEERS OF INNOVATIVE PHARMACEUTICAL PACKAGING

Kaisha Packaging is a premium manufacturer of a large variety of aluminium seals for injection vials and plastic articles for the pharmaceutical industry, with a focus on offering high quality closures at affordable prices. Today, Kaisha produces and supplies over 1.2 billion seals worldwide per annum.

1.2B

seals manufactured and sold worldwide per annum
